Re: Written Ex Parte Communication, GN Docket No. 10-25

Dear Ms. Dortch:

At the Commission's request, CTIA – The Wireless Association® (“CTIA”) respectfully submits the attached information regarding wireless handsets with FM radio capabilities in the above-captioned docket. As the attached spreadsheet reveals, CTIA's review found 39 devices with FM radio functionality on the market as of February 2011. This review does not include the many models that are no longer for sale but may still be in use by the public. Additionally, the Best Buy Mobile Guide for February 2011 is attached, which depicts numerous FM radio-capable handsets available at Best Buy from CTIA's carrier members.

A copy of this letter is being filed via ECFS with the FCC Secretary's Office. If you have any questions, please do not hesitate to contact me.

Sincerely,

/s/ Brian Josef

Brian Josef
Assistant Vice President, Regulatory Affairs
CTIA – The Wireless Association®
